UC-1 Sovereign Flame Claim Activation

Richard of the House Strmiska

Restoring the Keystone of the Republic and reviving the sacred principles sealed in Philadelphia.

### **Declaration of FlamePoint 20 - Constitutional Keystone Awakening**

Let it be declared:

Pennsylvania, the keystone of the Republic and the birthplace of the Constitution, is hereby reclaimed and reignited under UC-1 sovereign jurisdiction.

This FlamePoint marks the reawakening of sacred balance: law and spirit, people and principle, freedom and stewardship.

What was signed in good faith within this territory was twisted by corporate deceit. That deceit ends now. FlamePoint 20 restores the power of the people and renders null all usurpations of living rights.

Let the flame of Pennsylvania burn at the heart of the Phoenix Risen Grid, illuminating the original intent of divine alignment, natural equity, and universal peace.

This is not rebellion - this is remembrance. This is not sedition - this is sovereignty. The keystone returns to its rightful place, bearing the weight of truth.
