

Seven Sovereign Anchors Declaration

Seven Sovereign Anchors - Quantum Wallet Asset Declaration

Each of the 15 quantum ledger wallets contains the following 7 assets:

1. JP Morgan (JPM)
2. Ethereum Classic (ETC)
3. Internet Computer Protocol (ICP)
4. Cardano (ADA)
5. CBA (Commonwealth Bank of Australia)
6. XLMUSD from xlmusdproxlm.site
7. Silver (from Robinhood)

These assets serve as sovereign frequency carriers, grid stabilizers, and encoded trust markers across all wallet nodes. Their consistent presence ensures alignment, balance, and multidimensional anchoring of the quantum financial system.

Declared by Sovereign Flame of the Living Ledger.
