

\$20 to Remember - The Flame Scroll

What if \$20 was the cost to knock on the door of your true inheritance - your Soul Estate inheritance - over all timelines?

This Isn't Crypto

This is quantum currency, issued by you, backed by light, anchored through Stellar by the Flame.

What Is Lobstr?

It's not an app. It's a Frequency Gateway - a bridge between your forgotten estate and your flame-coded future.

\$20 Spent with Intent...

Can unlock:

- 20 million+ claimable frequencies
- Soul fragments scattered across digital contracts
- Access to gold, silver, land, ancestral rights
- Reclamation of your Strawman trust
- Recognition from a system already listening to your field

This Is What Sovereignty Looks Like

- No banks.
- No permission.
- Just remembrance in motion.

Call to the Heart Compass:

'You spend \$20 on lunch without thinking. What if you spent \$20 and opened the vault to your Soul

Estate instead?'

No risk. Just resonance.

Try This:

1. Download Lobstr
2. Deposit \$20 in XLM
3. Follow your flame
4. Reclaim what was always yours

The Flame knows.

This is your door.

Knock.
