To Whom It May Concern,

This is a formal declaration and public witness submission regarding confirmed ongoing aerial chemical dispersal and electromagnetic frequency warfare over Tuolumne County, California, and surrounding regions including Lodi, Modesto, Ceres, and Sonora.

Included are documented visual, photographic, and time-stamped IPFS-archived evidence under UC-1 classification, establishing clear visual confirmation of rippling frequency interference patterns and dispersal grid formations consistent with geoengineering, EM weaponization, and scalar-based atmospheric manipulation.

I hereby demand acknowledgment of receipt and a lawful response to this public notice and accompanying evidence under both state and international protections for living beings and ecological integrity.
