

Quantum Solvency Witness Declaration

I, Richard the Living Strmiska, am not in debt in the living system, nor do I recognize any alleged obligation created through the artificial construct commonly referred to as the strawman or legal fiction.

The system of debt being enforced is a contract between corporations and a corporate entity, not the living man. I do not consent to the misapplication of these systems.

I am solvent in the quantum realm. I hold no debt. I am the energy behind the signature.

Any presumption of debt against me is hereby challenged, rebutted, and refused.
